SUMMARY

I build bridges between powerful enterprise systems and custom web solutions. As an experienced ERP Developer (Odoo, 1Ci:Enterprise) and a versatile Web Developer, my goal is to create seamless, efficient, and user-friendly applications that drive business growth. I am passionate about diving deeper into ERP systems and understanding the core business processes they empower.

EXPERIENCE

ERP Developer (Odoo & 1Ci Enterprise)

PT ERP Indonesia

June 2025 - Present, Semarang

- Responsible for the full development lifecycle of ERP implementation projects for various clients. My work includes requirement analysis, system design, and custom module development on the Odoo and 1Ci:Enterprise platforms to meet specific business needs.
- Recent Projects Include: Yayasan Lembaga Alkitab Indonesia, PT Bangun Era Sejahtera Mandiri, PT Dua Putra Perkasa, PT Kota Jati Furniture, and more.

Wordpress Developer

Adspesialis Freelance

April 2025 - Present, Yogyakarta

- Designed and developed custom WordPress websites for a diverse range of clients. My focus is on building fast, responsive, and user-friendly landing pages and small e-commerce sites. I handle the entire development process, from initial concept and design to deployment and client handover.
- Recent Projects Include: sabusaindonesia.com, promeat.web.id, flowsublim.store, rcankontruksi.pro, guidingblock.com, carafelcake.store, and more.

Full Stack Web Developer

Objti Dev

December 2024 - May 2025, Semarang, Central Java

- Connectthink Space is a software house in Semarang, in there I work as a web developer in a Objti Dev Team. I clear any project from any client who most client at other country. I and my team use Laravel, CodeIgniter, React JS, and Filament frameworks to create web applications.
- Recent Projects Include: Yayasan Peduli Anak, INKINDO DKI, ERP Mitra Karya Analitika, Subgrids, TJ Scrap Metal, SMK Palapa Semarang, and more.

Statistician

Dinas Komunikasi dan Informatika Jawa Tengah

February 2023 - March 2023, Semarang, Central Java

- As a Statistics Intern at the Central Java Communication and Information Office, I assist in collecting, analyzing, and interpreting data to support decision-making processes. My role involves working with large datasets, generating statistical reports, and providing insights to enhance the effectiveness of communication and information initiatives. I am dedicated to applying my analytical skills to contribute to the development of data-driven strategies within the organization.

IT Support

PT. PLN Jawa Tengah dan D.I.Y

July 2018 - October 2018, Semarang, Central Java

- As an IT Support Intern at PT PLN, I am responsible for maintaining and troubleshooting the company's IT infrastructure. My role involves diagnosing and resolving network issues, repairing and upgrading PCs, and ensuring that all systems run smoothly to support the company's operations. I am passionate about leveraging my technical skills to solve problems and contribute to the overall efficiency of the team.
